Easily manage multiple styles

“

**These hair problems are affecting
your image and draining your time**

**Both curly and straight hair
can be used**

Curl styling

Straight hair style

CORE ADVANTAGES

360°

360° heat without
dead angle

Universal for
any shape

40mm
large roll

Type-C
charging port

Thermostatic Hair Care
Technology

positive and negative
ions (physics)

High Thickness Plasma Hair Care

Repairing styling plasma to smooth frizz

Cordless Styling Curling Brush

Curly/Smooth/fluffy/Introduction/Extroversion/Bangs

Large capacity 7000mAh

Straighten your hair in two steps

1. Start by combing a strand of hair with the product

2. Comb down the hair slowly and repeat a few times

Curl your hair in three steps

1. Use a comb to preheat your hair before you snap your hair into it

2. Wrap the hair around the comb a few times and wait for three to five seconds

3. Pull upward with a comb, the effect of natural volume on the speed of slightly faster and slightly slower on the curvature of the volume is relatively large
