

LE09 LED Light Therapy Mask

Ten Minutes a Day for Younger Looking Skin

Five-Spectrum Technology

Near Infrared, Red, blue, and yellow light synergy for comprehensive skin rejuvenation.

10-Minute Daily Ritual

Seamlessly fits into busy schedules with professional-grade efficiency.

Smart Sensor Control

Auto-adjusts light intensity for personalized, skin-safe treatment.

01. Product Overview: Revolutionize Your Skincare Routine

A cutting-edge at-home beauty device that brings professional-grade light therapy to your daily routine, delivering visible results in just 10 minutes a day.

★ Brightening

Illuminate your skin from within, reducing dullness and uneven tone to reveal a naturally radiant and luminous glow.

👤 Firming

Boost collagen production deep in the dermis to enhance skin elasticity, lifting sagging areas for a more youthful contour.

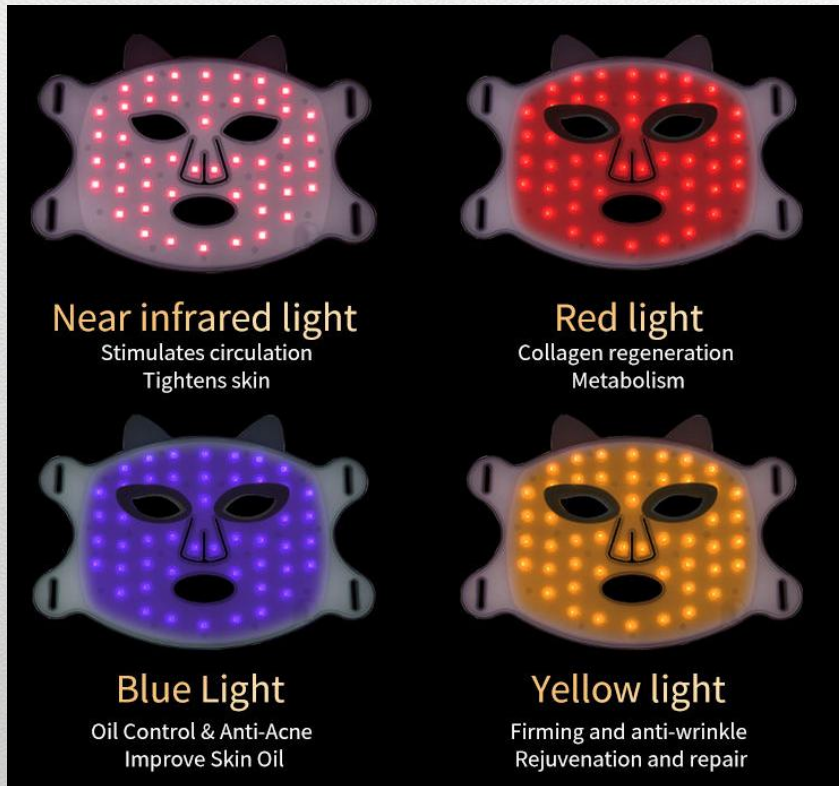

📄 Reduction

Diminish the visibility of fine lines, wrinkles, and hyperpigmentation, refining texture for a smoother, more even complexion.

☂️ Repairing

Accelerate the skin's natural repair and rejuvenation processes, strengthening its barrier and improving overall resilience.

02. The Science: 5-Color Light Therapy Technology

Our mask integrates five clinically proven wavelengths of light, each targeting specific skin concerns to deliver comprehensive, science-backed skincare benefits.

Near Infrared Light (850nm & 1072nm)

Achieves deep skin penetration to boost circulation, accelerate tissue repair, and stimulate collagen production from within for total cellular rejuvenation.

Red Light (660nm) — The Anti-Aging Powerhouse

The gold standard for reducing fine lines and wrinkles, it enhances skin elasticity, fades age spots, and revitalizes dull, tired-looking complexions.

Blue Light (415nm) — The Clear Skin Solution

Targets acne-causing bacteria at the source, regulates sebum production, and calms inflammation, making it ideal for oily and breakout-prone skin.

Yellow Light (590nm) — The Skin Perfector

Reduces redness, minimizes the appearance of pores, and evens out skin tone. It also boosts lymphatic drainage for a brighter, more radiant finish.

03. Innovative Design & Premium Materials

A close-up view of the LE09's internal matrix, showcasing the precision-engineered layout of high-density LED beads for uniform light distribution across facial contours.

We've engineered the LE09 with both clinical efficacy and exceptional user comfort in mind, selecting only the finest materials to ensure safety, durability, and a premium experience.

Premium, Skin-Safe Materials

Hypoallergenic, BPA-free construction that's gentle on sensitive skin, ensuring safe, irritation-free use for all skin types.

Patented Split Mask

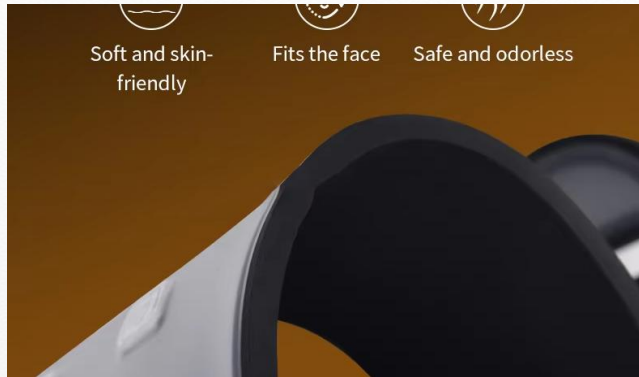

Customizable fit design adapts to all face shapes for optimal light contact and comfort.

High-Density Matrix

Precision-placed LED beads deliver uniform, full-spectrum light coverage for maximum effectiveness.

Premium, Skin-Safe Materials & Patented Split Eye Mask

Food-Grade Soft Silicone

Crafted from ultra-soft, medical-grade silicone that is hypoallergenic, non-irritating, and gentle on all skin types for maximum comfort.

DURABLE

High-Toughness ABS Build

Controller and structural components use robust, drop-resistant ABS plastic. Ensures the product withstands daily use and maintains performance for years.

Patented Split Eye Mask

Innovative design allows open eyes during treatment—watch TV, work, or read. Light sources are directed away, eliminating direct eye exposure.

Our commitment to safety and usability means every component is thoughtfully selected, blending premium materials with innovative engineering for a seamless skincare experience.

LED Bead Layout Comparison

conventional on the market

Superior Light Distribution

With a total of **583 LED chip** sources (**140 individual LED beads**) in a high-density layout, our mask ensures uniform light coverage across the entire facial area, eliminating gaps for consistent treatment.

Our top-tier version (high-density)

Enhanced Therapeutic Effectiveness

Optimized distribution ensures every facial zone receives full therapeutic benefit. Compared to sparse conventional masks, this high-density matrix delivers faster, more noticeable, and consistent skincare results.

04. The All-in-One Smart Controller

The intuitive controller puts complete control of your skincare routine at your fingertips, combining sleek design with powerful functionality for an effortless user experience.

Ergonomic handheld design with a clear, high-resolution display panel.

User-Friendly Interface

Featuring a large, easy-to-read display screen and tactile button controls, operation is effortless for users of all ages, eliminating the learning curve.

Powerful & Convenient

Equipped with a 2500mAh high-capacity battery for long-lasting use, and featuring universal Type-C charging for fast, hassle-free power replenishment.

Fully Customizable Experience

Tailor treatments with 3 adjustable brightness levels and 7 selectable modes, ensuring a personalized skincare regimen that adapts to individual needs.

05. Detailed Technical Specifications

Product name: photon skincare mask	Product material: ABS and silicon
Mask size: 299*210*3.5mm	Controller size: 130*40*26.5mm
Product power : 6.5W	Voltage : 5V--1A
Battery capacity: 2500mAh	Timing: 10 /15 /20/mins
Weight: 168g	Bead units: 140(583 chips)
Light wavelength : Deep NIR(1072nm), NIR(850nm) Red light (660nm),Blue light (415nm),Yellow light (590nm)	

Model & Power

Model: LE09 | Power: 6.5W
(optimized for energy efficiency and maximum output).

Voltage & Weight

Input: 5V-1A | Weight: 168g.
Lightweight and compatible with standard USB power sources.

Product Dimensions

299 x 210 x 3.5 mm. Ultra-slim profile ensures portability and easy storage.

Runtime & Usage

10/15/20 min cycles (selectable) | >1 hour continuous use on a full charge.

LED Configuration

583 high-quality LED chips (140 beads) deliver uniform, high-intensity photon distribution.

Multi-Spectrum Wavelengths

NIR (850&1072nm), Red (660nm), Blue (415nm), and Yellow (590nm) for comprehensive care.

The LE09 features a sleek, ergonomic form factor crafted from durable ABS and soft silicone, ensuring a secure and comfortable fit for all facial contours.

06. Why Choose the LE09?

The LE09 LED light therapy mask combines cutting-edge technology with user-centric design, offering a seamless at-home skincare experience that rivals professional salon treatments.

Professional-Grade Results at Home

Deliver salon-quality light therapy in the comfort of your own home, eliminating the need for costly and time-consuming visits.

Superior Build Quality

Crafted with premium, durable, and skin-safe medical-grade materials to ensure long-lasting performance and user safety.

Time-Efficient Treatment

A complete session takes just 10-20 minutes, perfectly designed to fit into the busiest of daily schedules without compromise.

Innovative, Productive Design

The only mask that allows you to read, work, or be entertained during treatment, maximizing your valuable time.

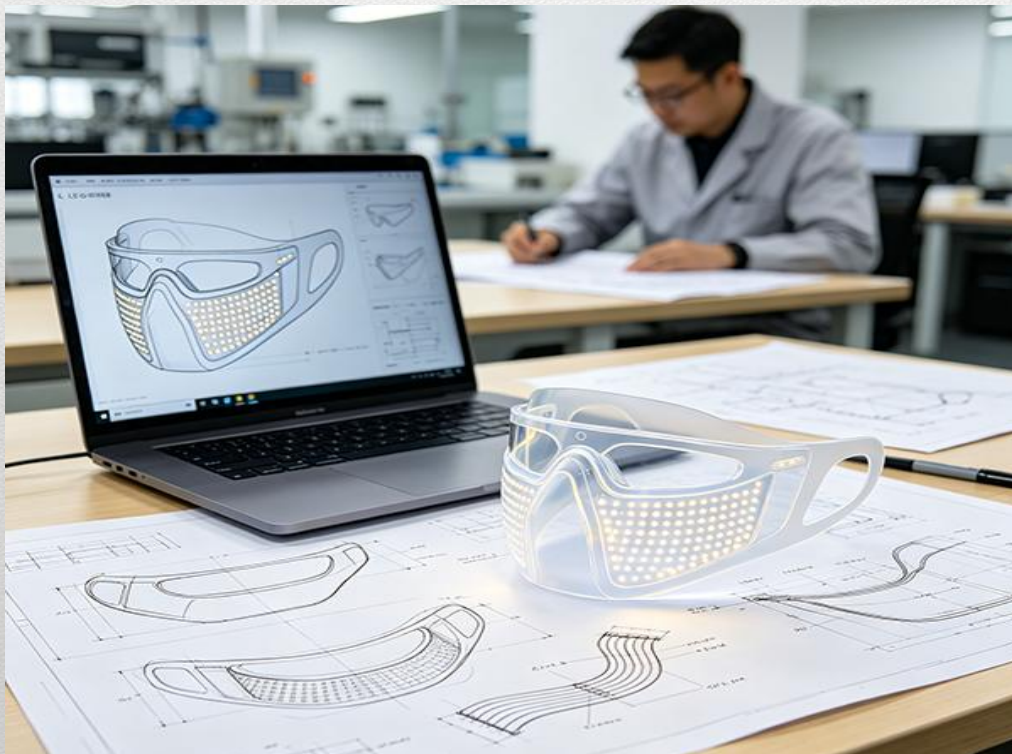

Safe & Non-Invasive

No downtime, no adverse side effects, and formulated to be gentle and suitable for all skin types, from sensitive to oily.

Fully Customizable Settings

Multiple light modes and adjustable brightness levels let you tailor each session to your specific skin concerns and preferences.

07. OEM & ODM Services

We understand the importance of building your brand. Our comprehensive OEM and ODM solutions are tailored to turn your unique vision into reality, ensuring your product stands out in the market.

Custom Branding

Seamlessly integrate your logo, color schemes, and brand identity across the product body and all touchpoints for a cohesive market presence.

Packaging Design

Collaborate with our expert team to craft eye-catching, bespoke packaging that reflects your brand story and captivates your target audience.

Software Customization

Tailor firmware settings, user interfaces, and functional logic to align perfectly with your brand's user experience goals and technical specifications.

Private Labeling

Launch the LE09 as your very own exclusive product line, with dedicated support to maintain your market exclusivity and competitive edge.

Ready to Illuminate Your Business?

Join the light therapy revolution and offer your customers a transformative skincare solution. Contact us today to discuss how the LE09 can become a cornerstone of your product portfolio, elevating your brand and delivering unmatched value to your audience.
